

torch.func.replace_all_batch_norm_mod

https://pytorch.org/docs/stable/generated/torch.func.replace_all_batch_norm_mod

Description:

In place updates root by setting the running_mean and running_var to be None and setting track_running_stats to be False for any nn.BatchNorm module in root

Function Signature

```
torch.func.replace_all_batch_norm_modules_(root)[source]#
```

Return type

Returns:

Module

Detailed Documentation

Documentation

In place updates root by setting the `running_mean` and `running_var` to be `None` and setting `track_running_stats` to be `False` for any `nn.BatchNorm` module in root

In place updates root by setting the `running_mean` and `running_var` to be `None` and setting `track_running_stats` to be `False` for any `nn.BatchNorm` module in root
