

ShapeEnvSettings#

[https://pytorch.org/docs/stable/generated/torch.fx.experimental.symbolic_shapes](https://pytorch.org/docs/stable/generated/torch.fx.experimental.symbolic_shapes.ShapeEnvSettings.html)

Description:

Encapsulates all shape env settings that could potentially affect FakeTensor dispatch. Used when creating dispatch cache keys.

Function Signature

```
class
torch.fx.experimental.symbolic_shapes.ShapeEnvSettings(allow
_scalar_outputs, allow_dynamic_output_shape_ops,
assume_static_by_default, specialize_zero_one, duck_shape,
prefer_deferred_runtime_asserts_over_guards, trace_asserts)
[source]#
```

Detailed Documentation

Documentation

Encapsulates all shape env settings that could potentially affect FakeTensor dispatch.
Used when creating dispatch cache keys.

Encapsulates all shape env settings that could potentially affect FakeTensor dispatch.
Used when creating dispatch cache keys.
