

torch.fx.experimental.symbolic_shapes.hint_int

https://pytorch.org/docs/stable/generated/torch.fx.experimental.symbolic_shapes.hint_int.html

Description:

Retrieve the hint for an int (based on the underlying real values as observed at runtime). If no hint is available (e.g., because data dependent shapes), if fallback is not None, use that instead (otherwise raise an error).

Function Signature

```
torch.fx.experimental.symbolic_shapes.hint_int(a,  
fallback=None)[source]#
```

Return type

Returns:

int

Detailed Documentation

Documentation

Retrieve the hint for an int (based on the underlying real values as observed at runtime). If no hint is available (e.g., because data dependent shapes), if fallback is not None, use that instead (otherwise raise an error).

Retrieve the hint for an int (based on the underlying real values as observed at runtime). If no hint is available (e.g., because data dependent shapes), if fallback is not None, use that instead (otherwise raise an error).
