

torch.fx.experimental.symbolic_shapes.is

https://pytorch.org/docs/stable/generated/torch.fx.experimental.symbolic_shapes

Description:

Utility to check if underlying object in SymBool is concrete value. Also returns true if integer is passed in. a (SymBool or bool) – Object to test if it bool

Function Signature

```
torch.fx.experimental.symbolic_shapes.is_concrete_bool(a)  
[source]#
```

Parameters

Return type

Returns:

bool

Detailed Documentation

Documentation

Utility to check if underlying object in SymBool is concrete value. Also returns true if integer is passed in.

a (SymBool or bool) – Object to test if it bool

Utility to check if underlying object in SymBool is concrete value. Also returns true if integer is passed in.

a (SymBool or bool) – Object to test if it bool
