

torch.fx.experimental.symbolic_shapes.s

https://pytorch.org/docs/stable/generated/torch.fx.experimental.symbolic_shapes

Description:

Like `==`, but when run on list/tuple, it will recursively test equality and use `sym_and` to join the results together, without guarding.

Function Signature

```
torch.fx.experimental.symbolic_shapes.sym_eq(x, y)[source]#  
Return type
```

Returns:

BoolLikeType
