

torch.get_float32_matmul_precision#

https://pytorch.org/docs/stable/generated/torch.get_float32_matmul_precision

Description:

Returns the current value of float32 matrix multiplication precision. Refer to `torch.set_float32_matmul_precision()` documentation for more details.

Function Signature

```
torch.get_float32_matmul_precision()[source]#
```

Return type

Returns:

str

Detailed Documentation

Documentation

Returns the current value of float32 matrix multiplication precision. Refer to `torch.set_float32_matmul_precision()` documentation for more details.

Returns the current value of float32 matrix multiplication precision. Refer to `torch.set_float32_matmul_precision()` documentation for more details.
