

torch.get_num_interop_threads#

https://pytorch.org/docs/stable/generated/torch.get_num_interop_threads.html

Description:

Returns the number of threads used for inter-op parallelism on CPU (e.g. in JIT interpreter)

Function Signature

```
torch.get_num_interop_threads() → int#
```

Detailed Documentation

Documentation

Returns the number of threads used for inter-op parallelism on CPU (e.g. in JIT interpreter)

Returns the number of threads used for inter-op parallelism on CPU (e.g. in JIT interpreter)
