

# torch.get\_num\_threads#

[https://pytorch.org/docs/stable/generated/torch.get\\_num\\_threads.html#torch.g](https://pytorch.org/docs/stable/generated/torch.get_num_threads.html#torch.g)

## Description:

Returns the number of threads used for parallelizing CPU operations

## Function Signature

---

```
torch.get_num_threads() → int#
```

## Detailed Documentation

---

### Documentation

Returns the number of threads used for parallelizing CPU operations

Returns the number of threads used for parallelizing CPU operations
