

torch.is_conj#

https://pytorch.org/docs/stable/generated/torch.is_conj.html

Description:

Returns True if the input is a conjugated tensor, i.e. its conjugate bit is set to True. input (Tensor) – the input tensor.

Function Signature

```
torch.is_conj(input)#
```

Parameters

Detailed Documentation

Documentation

Returns True if the input is a conjugated tensor, i.e. its conjugate bit is set to True.

input (Tensor) – the input tensor.

Returns True if the input is a conjugated tensor, i.e. its conjugate bit is set to True.

input (Tensor) – the input tensor.
