

torch.mps.recommended_max_memory

[https://pytorch.org/docs/stable/generated/torch.mps.recommended_max_memory.h](https://pytorch.org/docs/stable/generated/torch.mps.recommended_max_memory.html)

Description:

Returns recommended max Working set size for GPU memory in bytes.

Recommended max working set size for Metal. returned from device.recommendedMaxWorkingSetSize.

Function Signature

```
torch.mps.recommended_max_memory()[source]#
```

Return type

Returns:

int

Notes & Warnings

NOTE

Note Recommended max working set size for Metal. returned from `device.recommendedMaxWorkingSetSize`.
