

torch.mps.set_rng_state#

https://pytorch.org/docs/stable/generated/torch.mps.set_rng_state.html

Description:

Sets the random number generator state. `new_state` (`torch.ByteTensor`) – The desired state device (`torch.device` or `int`, optional) – The device to set the RNG state. Default: `'mps'` (i.e., `torch.device('mps')`, the current MPS device).

Function Signature

```
torch.mps.set_rng_state(new_state, device='mps')[source]#
```

Parameters

Detailed Documentation

Documentation

Sets the random number generator state.

`new_state` (`torch.ByteTensor`) – The desired state

`device` (`torch.device` or `int`, optional) – The device to set the RNG state. Default: `'mps'` (i.e., `torch.device('mps')`, the current MPS device).

Sets the random number generator state.

`new_state` (`torch.ByteTensor`) – The desired state

`new_state` (`torch.ByteTensor`) – The desired state

`device` (`torch.device` or `int`, optional) – The device to set the RNG state. Default: `'mps'` (i.e., `torch.device('mps')`, the current MPS device).
