

# torch.mtia.set\_rng\_state#

[https://pytorch.org/docs/stable/generated/torch.mtia.set\\_rng\\_state.html](https://pytorch.org/docs/stable/generated/torch.mtia.set_rng_state.html)

## Description:

Sets the random number generator state. `new_state` (`torch.ByteTensor`) – The desired state device (`torch.device` or `int`, optional) – The device to set the RNG state. Default: 'mtia' (i.e., `torch.device('mtia')`, the current mtia device).

## Function Signature

---

```
torch.mtia.set_rng_state(new_state, device='mtia')[source]#
```

Parameters

# Detailed Documentation

---

## Documentation

Sets the random number generator state.

`new_state` (`torch.ByteTensor`) – The desired state

`device` (`torch.device` or `int`, optional) – The device to set the RNG state. Default: `'mtia'` (i.e., `torch.device('mtia')`, the current mtia device).

Sets the random number generator state.

`new_state` (`torch.ByteTensor`) – The desired state

`new_state` (`torch.ByteTensor`) – The desired state

`device` (`torch.device` or `int`, optional) – The device to set the RNG state. Default: `'mtia'` (i.e., `torch.device('mtia')`, the current mtia device).

`device` (`torch.device` or `int`, optional) – The device to set the RNG state. Default: `'mtia'` (i.e., `torch.device('mtia')`, the current mtia device).
