

torch.numel#

<https://pytorch.org/docs/stable/generated/torch.numel.html>

Description:

Returns the total number of elements in the input tensor. input (Tensor) – the input tensor.

Function Signature

```
torch.numel(input: Tensor) → int#
```

Parameters

Code Examples

```
>>> a = torch.randn(1, 2, 3, 4, 5)
>>> torch.numel(a)
120
>>> a = torch.zeros(4,4)
>>> torch.numel(a)
16
```

Detailed Documentation

Documentation

Returns the total number of elements in the input tensor.

input (Tensor) – the input tensor.

Returns the total number of elements in the input tensor.

input (Tensor) – the input tensor.
