

torch.sym_sum#

https://pytorch.org/docs/stable/generated/torch.sym_sum.html

Description:

N-ary add which is faster to compute for long lists than iterated binary addition. Only does something special for integers.

Function Signature

```
torch.sym_sum(args)[source]#
```

Detailed Documentation

Documentation

N-ary add which is faster to compute for long lists than iterated binary addition. Only does something special for integers.

N-ary add which is faster to compute for long lists than iterated binary addition. Only does something special for integers.
